NIELIT Calicut is one of the best Institutes to pursue PG Diploma in Embedded System Design. The course is designed in such a way that it helps student to bridge the gap between academia and industry. With well equipped Labs and Experienced Faculty, NIELIT strives to prepare fresh graduates for careers in the field of Embedded Technology and IoT. More emphasis is given for practical than theory, which enables students to have hands- on experience with the latest technology. Faculty at the Institute is very helpful and encourages students to acquire all the skills required for the industry. To help prepare for Interviews, NIELIT also conducts module wise tests and placement tests.

PG Diploma in Embedded System Design (ED500)

August 2018 - February 2019

PLACEMENTS

For me, life in NIELIT, Calicut has been enriching. It helped me to bridge the gap between my engineering studies and the requirements of the industry. The environment not only helped me in imbibing knowledge but also in gaining confidence for attending technical interviews. NIELIT provides excellent placement support. ES Department has achieved excellence in imparting high quality education with prime focuson embedded concepts and IoT. The faculty here is well experienced, helpful and influential in imparting the skills. I amfortunate to be a part of this Institution.

PLACEMENTS

It has been a great experience for me at NIELIT Calicut. The course gave me better understanding of Embedded concepts and valuable hands on experience with latest technologies and industry standard tools. There is well equipped lab facility and experienced faculty who are helpful, influential and has given me good guidance. There is also excellent placement support. Weekly model placement tests and evaluation helped me improve and gain confidence in attending interviews.
