

## COURSE PROSPECTUS

<b>Name of the Group:</b>	VLSI & ES
<b>Name of the Course:</b>	<b>Online</b> Certificate course on Python programming for <b>Data Science</b>
<b>Course Code:</b>	ST102
<b>Starting Date:</b>	1 <sup>st</sup> June 2020
<b>Duration:</b>	4 Weeks
<b>Course Coordinator:</b>	Ishant Bajpai, +91-9958016673
<b>Last date of Registration:</b>	29 <sup>th</sup> May 2020

### Preamble:

Data Science refers to extraction of knowledge from large volumes of data that are structured or unstructured, which is continuation of data mining and predictive analytics. It involves different categories of analytical approaches for modelling various types of business scenarios and arriving at solution and strategies for optimal decision-making in marketing, finance, operations, organizational behaviour and other managerial aspects. This new field of study breaks down into a number of different areas, from constructing big data infrastructure and configuring the various server tools that sit on top of the hardware, to performing the analysis and developing the right transformations to generate useful results.

The MCKINSEY Global Institute has predicted that in forthcoming years, the world will face a shortage of more than 38-40 million highly skilled manpower with deep analytical skills that can leverage data analysis to make effective decisions for their organizations. The objective of this program is to create a pool of talent who can leverage this huge demand for resources skilled in Data Science.

Python emerged as a leading programming language used in the Booming areas like Artificial Intelligence (AI), Internet of Things (IoT) and Data analytics. Currently available academic curriculum is not much enough to fulfil the requirement of Skills needed to program in Python language for Data Analytics. Because of lack of hands-on experience among professionals, there is a huge demand in providing skill-based training in Data Analytics using Python language which will bridge the skill-gap of the engineering graduates.

### Objective of the Course:

To develop and skill the engineering graduates in Data Analysis using Python Programming language to Clean, Analyze the data and Visualize the data using Powerful Analytic Tools.

**Outcome of the Course:** After successful completion of this Course, students can able to:

1. Explore Python language fundamentals, including basic syntax, variables, and Data types.
2. Create and manipulate regular Python lists.
3. Use functions and import Numpy & Panda packages.
4. Build Numpy arrays and perform interesting calculations.
5. Create and customize plots on real data.

**Course Structure:**

S.No	Topics	Duration (in Week) via online mode
1	Introduction to Python Language	2 Week
2	Basic Syntax, Data types, Operators	
3	Flow Control in Python	
4	Functions, Modules & Packages	
5	File I/O	
6	Classes	
7	Exception Handling	
8	An Introduction to Data Science and Analytics.	2 Week
9	Data Analysis Using	
10	NumPy Package Data Analysis Using Pandas Package	
11	Data Visualization –Pandas, Matplotlib, Seaborn, and Plotly	
	<b>Total</b>	<b>4 Week</b>

**Other Details:**

**Course Fees:** (Non-Refundable) **Rs.500/- (Including GST)**

However, the above registration fee shall be refunded on few special cases as given below:

1. If course postponed and new date is not convenient for the student.
2. If course cancelled.

**Payment schedule:** The Fee is to be paid in one instalment as given below.

Instalment No.	Last Date for Payment	Amount (in Rs.)
1.	29-05-2020	500/-

**Eligibility:** Pursuing & Graduates of B.E/B.Tech/MCA/B.Sc/M.Sc/B.Com

## How to apply:

Candidates can apply online in our website <http://14.139.173.196/reg/>. Payment towards Course fee can be paid through any one of the following modes:

- ✓ DD drawn from a nationalized bank (preferably SBI) in favour of “NIELIT Chennai” payable at Chennai.
- ✓ Online transaction: Account No: 31185720641 Branch: Kottur (Chennai), IFS Code: SBIN0001669.
- ✓ Pay through Nationalized Bank Debit Card (Service charges applicable)

*Note:* The Institute will not be responsible for any mistakes done by either the bank concerned or by the depositor while remitting the amount into our account.

**Last date of Registration:** 29<sup>th</sup> May 2020

**Selection of candidates:** Selection is based on the first come basis (subject to fulfilling the eligibility criteria)

## Admission Procedure:

All interested candidates are required to fill the Registration form with the fees Course fees before 29<sup>th</sup> May 2020 with all the necessary following documents.

- Original and self-attested Copies of Proof of Age, Qualifications, etc.
- One passport size photograph and one stamp size photograph for identity card.
- Self-attested copy of Govt. issued photo ID card.

*Note:* Working days are from Monday to Friday. Admission timings are from 9.00 am to 5.30 pm.

**Discontinuing the course:** No fees under any circumstances shall be refunded in case of a student discontinuing the course. No certificate shall be issued if discontinued.

**Course Timings:** 1 hour online daily (from Monday to Friday) during working hours

**Mode of Training:** Online

**Location:** NIELIT Chennai is located at Gandhi Mandapam Road, Kotturpuram, Chennai (Landmark: Opp. To Anna Centenary Library)

**Address:** National Institute of Electronics and Information Technology Chennai Centre,  
ISTE Complex, No. 25, Gandhi Mandapam Road, Chennai – 600025  
E-mail: [training.chennai@nielit.gov.in](mailto:training.chennai@nielit.gov.in) / Phone: 044-24421445  
Contact Person: Ishant Bajpai, 9958016673

**Course enquiries:** Students can enquire about the various courses either on telephone or by personal contact between 9.15 A.M. to 5.15 P.M. (Lunch time 1.00 pm to 1.30 pm) Monday to Friday.

## **Annexure**

### **Detailed Syllabus of the Course**

#### **Module 1: Python Programming**

- An Introduction to Python
- Beginning Python Basics
- Python Program Flow
- Functions & Modules
- Exceptions Handling
- File Handling
- Classes in Python

#### **Module 2: Data Science and Analytics**

- An Introduction to Data Science and Analytics.
- Data Analysis Using NumPy
- Data Analysis Using Pandas
- Data Visualization –Pandas, Matplotlib, Seaborn and Plotly
