Internet & WWW

Popular Web Browsers:

Web Browsers:

A web browser (commonly referred to as a browser) is a client based software application program for retrieving, presenting and traversing information resources on the World Wide Web (WWW). Whenever a user wants to open a website, the browser is used to access the web pages. Almost all browsers allow the user to open multiple information resources at the same time, either in different browser windows or in different tabs of the same window.

Examples of Web Browser:

Name of the browser	Developer	Released Year
Internet Explorer	Microsoft	1995
Chrome	Google	2008
Mozilla Firefox	Mozilla	2004
Opera	Opera Software	1996
Safari	Apple Inc.	2003

Add to the knowledge

Epic is the first web browser from India. It was released on 15 July 2010 and focused on protecting users' privacy online. Epic Browser is based on the taste of Indian users.
