

W3.CSS Panels

The Panel Class

The **w3-panel** class adds a 16px top and bottom margin and a 16px left and right padding to any HTML element.

```
<!DOCTYPE html>
<html>
<title>W3.CSS</title>
<meta name="viewport" content="width=device-width, initial-scale=1">
<link rel="stylesheet" href="https://www.w3schools.com/w3css/4/w3.css">
<body>

<div class="w3-container">
  <h2>Displaying Panels</h2>
  <p>Panels are the same as containers except for an added top and bottom margin.</p>

  <div class="w3-panel w3-red">
    <p>I am a panel.</p>
  </div>
  <div class="w3-panel w3-green">
    <p>I am a panel.</p>
  </div>

  <div class="w3-container w3-red">
    <p>I am a container.</p>
  </div>
  <div class="w3-container w3-green">
    <p>I am a container.</p>
  </div>
</div>
```

```
</body>
</html>
```

Displaying Panels

Panels are the same as containers except for an added top and bottom margin.

I am a panel.

I am a panel.

I am a container.

I am a container.

Panels for Notes

The **w3-panel** class is perfect for displaying notes.

Notes are often displayed with a pale color:

```
<!DOCTYPE html>
<html>
<title>W3.CSS</title>
<meta name="viewport" content="width=device-width, initial-scale=1">
<link rel="stylesheet" href="https://www.w3schools.com/w3css/4/w3.css">
<body>

<div class="w3-container">
  <h2>Panels for Notes</h2>
  <p>The w3-panel class can be used to display notes:</p>

  <div class="w3-panel w3-pale-green">
    <p>London is the most populous city in the United Kingdom,
      with a metropolitan area of over 9 million inhabitants.</p>
  </div>

</div>
```

```
</body>  
</html>
```

Panels for Notes

The w3-panel class can be used to display notes:

London is the most populous city in the United Kingdom, with a metropolitan area of over 9 million inhabitants.

Assignment
