

## DON'T WRITE IT

### Just read it. It's a message for all of you.

Today, we are not going to do any written work. Instead, we are going to perform something in practical.

This is necessary because, I have heard from some students that practical work of HTML needs some extra time. The speed of understanding HTML code is a little slow. Probably this is because you have had not even learnt the basics of HTML in the classroom. Everything of HTML (even the start) has been done in this LOCKDOWN period.

Hence I have decided to go a little slow so that you get enough time to do it all on your own PC.

Those who have not their own PC can **call me or WhatsApp me on 8574885353** so that I can send you the necessary videos created by me on my PC.

**Thank you!**

**Now do the practical work as given on the page - 2**

- Write the following code in notepad
- Save it with [ filename.html ] and
- Open the file in a browser.

```
<html>

<head>
  <title>DOEACC SOCIETY </title>
</head>

<body bgcolor="gray">

  <h1>Introduction</h1>

  <p>DOEACC Society is an autonomous scientific society of the
  Department of Information Technology, Ministry of Communications
  & Information Technology, Govt. of India. The Society is
  registered under the Societies Registration Act, 1860. DOEACC
  Society is the only professional examination body in India,
  which accredits institutes / organizations for conducting
  particular course, specializing in the non-formal sector of IT
  education.</p>

  </body>

</html>
```

**After the code is run, following should be your output.**
