

Do the practical work as given here!

- Write the following code in notepad
- Save it with [filename.html] and
- Open the file in a browser.

```
<html>

<head>
  <title> DOEACC SOCIETY </title>
</head>

<body bgcolor="white">

  <h1>Introduction</h1>

  <p><b>DOEACC Society</b> is an <i>autonomous scientific
society</i> of the <u>Department of Information Technology,
Ministry of Communications & Information Technology, Govt. of
India</u>. The Society is registered under the
<b><i><u>Societies Registration Act, 1860</u></i></b>. DOEACC
Society is the only professional examination body in India,
which accredits institutes / organizations for conducting
particular course, specializing in the non-formal sector of IT
education.</p>

  </body>

</html>
```

NOTE: Though the code is same as of yesterday. But some more tags like , <i> </i> and <u> </u> have been introduced. These tags are for **Bold**, *Italic* and Underline respectively. In the output you will see the effect of these tags in the paragraph. Also the background colour has been changed from gray to yellow.

After the code is run, following should be your output.
