National Workshop-cum-Seminar on “Goods and Services Tax (GST) in India”

(May 22 - 23, 2018)

Jointly organised by

Department of Commerce
Nagaland University
Kohima Campus
Meriema-797004

&

National Institute of Electronics & Information
Technology (NIELIT) Kohima
Ministry of Electronics and Information
Technology, Govt. of India

Introduction

Indirect tax system has experienced a massive transformation with the introduction of Goods and Services tax (GST). The Goods and Services Tax (GST) has been implemented across the country from 1st July, 2017. This single tax system has replaced central taxes such as central excise duty, service tax, additional duties of excise and customs, special additional duties of customs and cesses and surcharges on supply of goods and services. It has also replaced state taxes like VAT, sales tax, purchase tax, entry tax, entertainment tax, taxes on advertisements, lotteries, betting and gambling and state cesses and surcharges.

The GST has been introduced with a view to ease the tax burden, make compliance simpler, reduce the multitude of taxes levied by the Centre and States by unifying them, to streamline and modernize tax administration. Moreover, the GST system provides business entities to take advantage of 'input tax credit' for taxes paid along with the supply chain to prevent the cascading effect of paying tax on taxes already paid. These objectives were to be achieved without either the Centre or the States taking a hit on their resources.

Experts are of the opinion that GST is the biggest and boldest tax reform that India has embarked upon since independence. If well implemented, the entire Indian market will be a unified market which may translate into lower business costs. Critics, however, point out that current dispensation which is the result of compromises and fear of the unknown has many challenges.

It is expected that the seminar will help the stakeholders in understanding the regulatory framework of GST, its implications and more specifically its impact to north eastern states.

Sub Themes

- Indirect Tax System in India
- GST- Regulatory Framework
- Tax structure under GST
- GSTN applications
- GST and its impact on Start- Ups
- GST and Industry's expectations
- GST and its impact on MSME sector
- Fiscal autonomy of NE States
