

National Institute of Electronics and Information Technology (NIELIT)

NIELIT has launched its own channel "**NIELIT**" through Mobile App titled Data Radio (download as "**DataMail**" from PlayStore) which has been recently launched by a reputed Indian firm as a freeware, i.e., no costs are associated for usage of the said application, except standard data charges. The said Mobile App is unique and innovative as it permits to launch a voice broadcast to a group, with the facility where users can also attach themselves to the channel. It is a one way channel like a "Radio channel" which can be used to share regular information to the audiences like students, Accredited and Facilitation Centres, General Masses etc without revealing identities of neither the sender nor the receiver. The audience can tune to the "**NIELIT**" channel and can listen the voice messages or can read the text messages broadcast over the channel. The activities includes but not limited to the following are planned to broadcast on the DataRadio:

1. Thought of the Day.
2. Tips on Cyber Security Awareness.
3. Latest information like availability of admit cards, results etc

The following are the steps to be followed for joining the channel "**NIELIT**"

1. Install the app "DataMail" from Play Store.
2. Run the Downloaded app (DataMail)
2. Enter your mobile number forgetting OTP and verify the same.
3. Create your email account in "Datamail.in" domain in any of the 8 regional languages.
4. Once the email account has been created, select the "DataRadio" app --> Click on "Tune"-->Type "NIELIT" -->Click on "Join"
