

Certificate Course in Introduction to AWS **(Self-paced)**

Certificate Course in Introduction to AWS (Course Code: IS100)

40 Hrs.: Self-paced
Seats: 200

Medium of Training: English

Last Date of Registration: 03-03-2023

Course Start Date: 06-03-2023

Objective

This course will help participants in gaining a strong foundation in Amazon Web Services and to gain knowledge about highly sophisticated cloud services delivered through this Public cloud Platform such as management of virtual EC2 instances, configuration of storage services and deployment of virtual private network connections. Deployment and configuration of the services delivered through AWS helps consumers to launch readymade server instances with capability to provide network & storage facilitation together associated within a Virtual Private Cloud. It is a self-placed course, where pre-recorded lecture will be uploaded on lms portal. Student can view the videos as per there convenience and solve the assignments. After the end of course, every student has to appear in online examination and after successful completion of the examination, digital certificate will be issued.

S	A	B	C
>=85%	75-84%	65%-74%	55%-64%
D	F		
50%-54%	Fail (<50%)
