Preamble: Data Science refers to extraction of knowledge from large volumes of data that are structured or unstructured, which is continuation of data mining and predictive analytics. It involves different categories of analytical approaches for modelling various types of business scenarios and arriving at solution and strategies for optimal decision-making in marketing, finance, operations, organizational behaviour and other managerial aspects. This new field of study breaks down into a number of different areas, from constructing big data infrastructure and configuring the various server tools that sit on top of the hardware, to performing the analysis and developing the right transformations to generate useful results.

Objective of the Course:

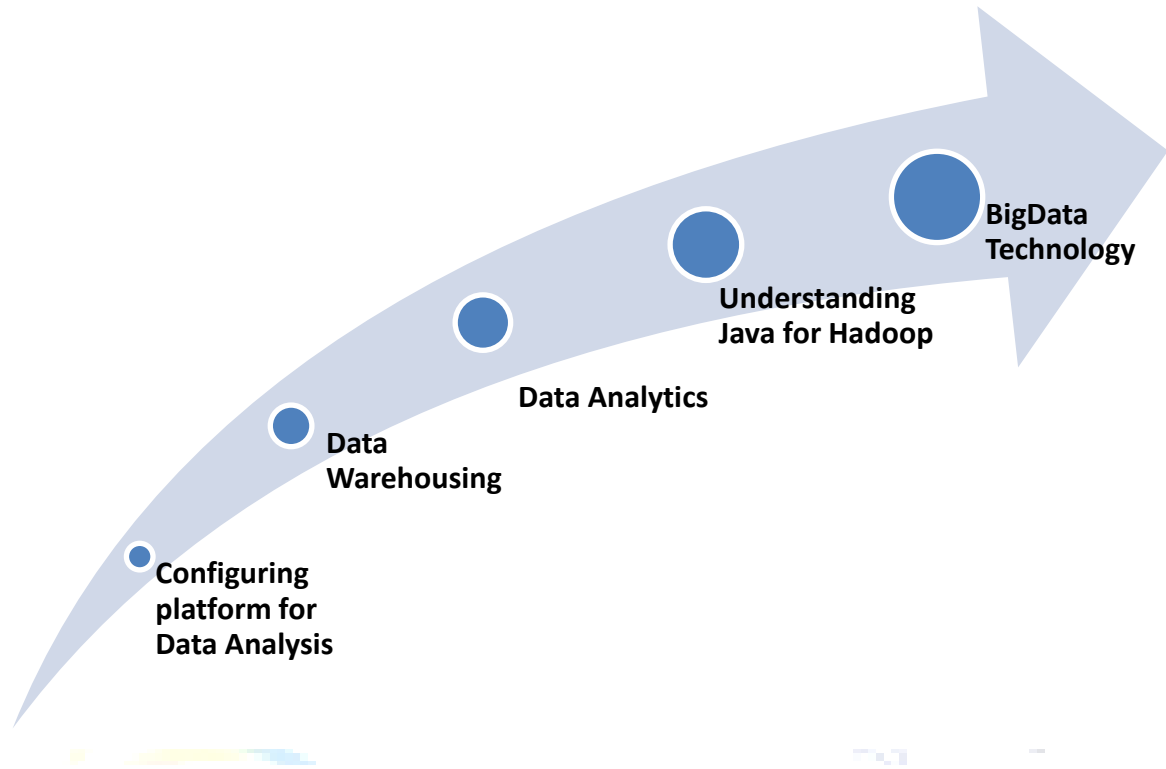

The **Post Graduate Diploma in Data Science & Analytics** a unique 6-month (840 Hours) program offered by NIELIT Chennai is an excellent blend of knowledge and practice in the field of Data Science and its industrial applications. The course is NSQF aligned with Level 8. The program is targeted for creating qualified Data Science professionals. The course progresses through the Operating System, concepts of Data and its storage, programming for data science, Big Data Technology and its implementation. Various advanced tools such as R and Python,

along with MySQL, MongoDB, Java Programming and Hadoop Framework are used for achieving the goal of solving critical business and Analytic problems. The Program also offers six weeks of hands-on real – life analytical projects for participants to get equipped with strong analytical and programming which makes them highly demanding and employable on completion of the program. The course has been designed after proper industry survey and consultation with multiple industry leaders to ensure that participants learn exactly what employers need.

The objective of this program is to make Statistical Analysts, Data Scientists, Data Analysts, Big Data Engineer, Hadoop Developer. There is a huge demand for resources skilled in Data Science. The MCKINSEY Global Institute has predicted that in forthcoming years, the world will face a shortage of more than 38-40 million highly skilled manpower with deep analytical skills that can leverage data analysis to make effective decisions for their organizations. So, it is quite obvious that existing resources along with new candidates who are interested in perusing career in this field needs to be trained. Our objective is to create a pool of talent who can meet this demand. This course is meant to sensitize students for computational statistics applications and usage as well as provide hands-on experience with solving real world data science issues.

Outcome of the Course: On completion of the Course, the Participants will learn the concept of Data Analytics using open source statistical tools like R, Python and some very good visualization tools and techniques. They will be able to implement industry-oriented Data Analytics Project.

Faculties

Saran S

Resource Person

Saran S, has an Integrated M.Sc. in Computer Science from Pondicherry University. He has extensive Hand on Experience in Hadoop Big Data Tools, ML & AI Integration in Data Science, Network Developer on Java Networks Application with Arduino Boards. He is currently a Project Engineer at National Institute of Electronics and Information Technology (NIELIT), Chennai. His areas of interest include Data Science, Big Data Analysts, ML & AI Developer, and Software Developer (Python & Java).

Lakshmi Priya S

Resource Person

Lakshmi Priya S, is Masters of Engineering in Computer Science and Engineering with Specialization in Big Data Analytics. She is a Project Engineer at National Institute of Electronics and Information Technology (NIELIT), Chennai. She has an experience as an educator in various domains like Big Data, Data Analytics using R and Python, RDBMS, NoSQL. She is expertise in statistics and has taken many short-term courses like Data Analytics using R, Python and PG Diploma Courses in Data Science and Analytics.

**Gayathri V**

Resource Person

Gayathri.V, is Masters in Computer Science and Engineering . She is a Resource Person (IT) at National Institute of Electronics and Information Technology (NIELIT), Chennai. She has an experience as an educator in various domains like Networks and security, Artificial Intelligence ,DBMS etc. for 4 years. Her area of interest is Data Science & Networks.

**Jayakodi R**

Resource Person

Jayakodi R is Masters of Engineering specialization in Software systems. She is a Resource Person (IT) at National Institute of Electronics and Information Technology (NIELIT), Chennai. She has an experience in various domains like Telecommunication domain and hands on experience in Java technologies. Her areas of interests include Web Technologies, Databases and Software Development.
