

Admission Open for Online / Campus / Summer Internship Training Programs 2023

IT Courses (Online Mode)

- Ethical Hacking & Information Security
- Python Programming & Data Science
- Digital Marketing
- Java Programming
- Cloud Computing
- Python Programming
- Data Analytics using Spreadsheet
- Network Administration
- Big Data using Hadoop
- Machine Learning
- Web Designing
- R Programming
- Full Stack Development using MERN
- Artificial Intelligence
- Web Development using Python & Django Framework
- Mobile App Development
- NoSQL Database MongoDB
- Web Application Development using Apache, PHP & MySQL
- Financial Accounting using Tally Prime
- Course on Computer Concepts (CCC)

Electronics Courses (Online Mode)

- Embedded System Design
- VLSI Design
- Solar Power Installation, Operation & Maintenance
- Design of DC Power Supply
- Design & Manufacturing of Transformer
- DSP using MATLAB
- Design of LED-Based Lighting Product
- Internet of Things

Other Courses (Online / Campus Mode)

- AutoCAD
- Robotics Process Automation

IT Courses (In-Campus Mode)

- Enterprise Network Administration and Cyber Security
- Digital Marketing
- Financial Accounting using Tally Prime
- Full Stack Development using MERN
- Java Programming
- NoSQL Database MongoDB
- Python Programming
- Network Administration
- Web Development using Python & Django Framework
- Web Application Development using Apache, PHP & MySQL
- Advanced Java
- Mobile App Development
- Data Analytics using Spreadsheet
- Computer Hardware and Networking
- Big Data using Hadoop
- Web Designing
- Python Programming & Data Science
- R Programming
- Course on Computer Concepts (CCC)

Electronics Courses (In-Campus Mode)

- Drone Technician
- Embedded System Design
- VLSI Design
- DSP using MATLAB
- Solar Power Installation, Operation & Maintenance
- Design of DC Power Supply
- Design of LED-Based Lighting Product
- Internet of Things

Summer Internship Training Courses (IT)

- Artificial Intelligence
- Big Data Using Hadoop
- Ethical Hacking & Information Security
- Digital Marketing
- Java Programming
- Python Programming
- NoSQL Database MongoDB
- Web Designing
- Network Administration
- Mobile App Development
- R Programming
- Advance Python Programming
- Web Application Development using Apache, PHP & MySQL
- Python Programming & Data Science
- Machine Learning using Python
- Enterprise Network Administration and Cyber Security
- Full Stack Development using MERN

Summer Internship Training Courses (Electronics)

- VLSI Design
- Solar Power Installation, Operation & Maintenance
- Design of DC Power Supply
- Design & Manufacturing of Transformer
- AutoCAD
- Verilog Programming
- DSP using MATLAB
- Robotics Process Automation
- Internet of Things

Other Summer Internship Training Courses

- AutoCAD

NSQF Aligned In-Campus Course

- CHM O Level Hardware
- PC Hardware & Networking Assistant
