1.1.3. One of the approved NOSs titled “**Gantry Crane Operator,**” there was an error in the nomenclature and the header of the table. **9.1.** The Committee was apprised that during the 24th meeting of NSQC held on 17th November 2022, provisional approval was accorded to 609 qualifications for implementation in PMKVY 4.0. This approval was subject to the rationalization of qualifications in multiple of 30 hours to align with NCrf provisions and addition of Employability Skills module in each qualification, where applicable, without amending the core NOSs of the qualification.

**9.2.** Accordingly, FICSI had submitted 21 qualifications, rationalised in accordance with NCrf and with the inclusion of Employability Skill Modules. However, certain observations/ anomalies were observed while uploading these qualifications on NQR and the same were pointed out and shared with FICSI vide email dated 22.12.2023. FICSI vide email dated 26.02.2024 informed NCVET that out of the 21 qualifications provisionally approved, substantial changes were proposed in eight qualifications. Consequently, they requested for withdrawal of these eight qualifications as they would require major revisions. The remaining 13 qualifications have been submitted by the FICSI after making necessary

modifications as suggested by NCVET for uploading on NQR. Details of the eight qualifications proposed to be withdrawn are as follows:

#### **10. AGENDA ITEM 10: RATIFICATION OF TWENTY-FIVE (25) NOSs RECEIVED FROM MICROSOFT INDIA**

**10.1.** The Committee was apprised that Microsoft India had applied for NCVET recognition as an Awarding Body and has been issued a Letter of Intent (LoI) granting provisional recognition as an AB. As per the recognition norms, the Awarding Body is required to submit a qualification/ NOS before signing the agreement. Accordingly, Microsoft India submitted 25 NOSs for NSQF alignment and approval.

**10.2.** Microsoft offers a diverse range of courses known for their quality and relevance both nationally and internationally. Additionally, the University Grants Commission (UGC) has also expressed interest in integrating NSQF-aligned and approved qualifications/NOSs/MCs of multinational corporations (MNCs) into Higher Educational Institutions, provided their model curriculum and content are readily available.

**10.3.** Considering the aforementioned factors and the grant of recognition to Microsoft as an Awarding Body, 25 NOSs were examined and granted 'on file' approval by the competent authority. The details of the NOSs are provided below:

**13.2. The Committee approved the revised qualifications with modified entry requirements.**

**14. AGENDA ITEM 14: ARCHIVAL OF NON-ACTIVE AND EXPIRED QUALIFICATION FROM THE NQR PORTAL**

**14.1.** The Committee was apprised that the National Qualification Register (NQR) portal had 4782 active NSQF aligned and approved qualifications as on 04-03-2023.

**14.2.** In its 26th meeting held on 31.01.2023, the committee ratified archival of 874 NSQF aligned and approved qualifications. These qualifications either had Nil/zero conducted training or had expired their 3-year validity period. Additionally, the NSQC had directed the implementation of regular audits to identify all such expired qualifications and those lacking training, ensuring that only relevant qualifications remain accessible on the NQR portal.

**14.3.** Accordingly, an audit was carried out by NCVET keeping in mind the validity of the NSQF aligned and approved qualifications. Generally, a validity of 3 years is granted to NSQF aligned and approved qualifications. During the

audit, it was found that there are 1416 such qualifications that have crossed the validity of 3 years.

**14.4.** However, upon detailed scrutiny, it came to notice that there are 315 NSQF aligned and approved qualifications which has a validity of more than 3 years, approved by NSQC in its various meetings.

**14.5.** After excluding the 315 qualifications, a total of 1057 qualifications were listed which needs to be archived. A detailed list is attached as **Annexure IV**–

**14.6. The Committee accorded approval to the archival of the 1057 NSQF aligned and approved qualification from the NQR portal and emphasized the following:**

- i. Upon expiry, the 359 NSQF aligned and approved qualifications if a revised version of the qualification is not submitted for approval by the AB concerned to the NSQC on time, it will be presumed that the qualification is no more required to be renewed and shall be automatically archived.***
- ii. The Committee stated that there could be instances where a qualification, which is being archived due to no training or expiry, but another AB wants to use the qualification or borrow some parts of it for implementation. In such cases, the AB concerned may pick up such qualification from the archived list, make modifications to it and bring it as a new qualification for NSQC approval and further implementation.***

**15. AGENDA ITEM 15: INCLUSION OF 'VALIDITY OF CREDITS EARNED' AS AN MANDATORY PARAMETER IN THE QUALIFICATION TEMPLATE FOR NSQF ALIGNMENT AND APPROVAL OF QUALIFICATION IN ACCORDANCE WITH THE PROVISIONS OF NATIONAL CREDIT FRAMEWORK**

**15.1.** The Committee was briefed that the National Credit Framework (NCrF), duly approved by the government has been notified by UGC on 10th April 2023 (<https://www.ugc.gov.in/Ncrf.aspx>.) and adopted by NCVET on 12th May 2023. The NCrF provide provisions for creditization of all learning including academic, vocational/ skills & experiential learning, and assignment, accumulation, storage, transfer & redemption of credits, subject to assessment; removes distinction between subjects and establishes academic equivalence between vocational & general education while enabling mobility within & between them, and its operationalization through the Academic Bank of Credits (ABC).

**15.2.** The NCrF allows for redemption of credits earned for a suitable award i.e Certificate, Diploma and Degree. The Certificate, Diploma or Degree earned

against a qualification shall have perpetual validity, which means that they would be valid for a lifetime. The credits earned, however, shall have a defined validity.

15.3. The para 3.5.5 on ‘Credit Expiry and Renewal’ of the NCrF document mentions the following:

*“Credits earned by students shall be deposited in the respective Bank Account with ABC and shall be valid for a period as defined by the respective regulator or till it is redeemed. The redemption of credits shall be as per the provisions of ABC Guidelines or as stipulated by the regulator concerned/ autonomous institution”.*

15.4. Subsequently, a High-Level Committee (HLC) to oversee the operationalization and implementation of NCrF was constituted by the Govt. The HLC constituted three different sub-committees to develop specific SOPs for operationalizing of NCrF in School Education, Higher Education and Vocational Education, Training and Skilling (VETS). Accordingly, the Sub-Committee for implementation of NCrF in VETS gave its final recommendations to the HLC which were placed for public consultation from 28th December 2023 to 25th January 2024 and is under finalization.

15.5. The SOP relating to VETS details out various provisions of Creditisation including the validity of credits with respect to VETS. The relevant extract is reproduced below:

*“The validity of the credits earned after undergoing training in a NSQF aligned and approved qualification will depend on the type of VETS qualification. In General, the validity of credits earned through a VETS qualification, unless otherwise specified in the qualification, shall be as below:*

- i. *General /lifelong learning/cognitive learning: Lifetime validity*
- ii. *Conceptual learning with detailed skills: 7 years validity*
- iii. *Conceptual learning with skills on Future Technologies: 3 years Validity or as may be decided*

*In case a student/ learner wishes to redeem the credits earned after the validity of the credits for a Skill-based course/ qualification has expired, the*

*student/ learner may go for re-validation of the credits of the course/ qualification through a well-defined assessment mechanism like RPL. The revalidation of the credit earned by a learner/ student is primarily applicable for redemption in case of academic education including the school and higher education. Such credits after the validity period would be reflected as 'Require re-validation for redemption' on ABC. The concerned institution, undertaking such assessment for revalidation may also recommend additional bridge module while doing the re-validation process. The responsibility of the re-validation of such courses along with assessment and credits will be that of the concerned regulator and appropriate mechanism for the same may be prescribed/ developed.*

*In context of employment / job, it shall be the responsibility and discretion of the employer to assess the eligibility and credentials of the candidate for a particular position and the validity of credit even if expired may not be a relevant criterion for an employer”*

**15.6.** Based on the above provisions in the SOP, it is proposed that the parameter 'Validity of the Credit Earned' may be included as a mandatory criterion for NSQF alignment and approval of the qualifications. Suitable modifications would therefore be undertaken in the Qualification file template.

**15.7.** Additionally, all the Awarding Bodies while calculating credits for the qualifications in the Q-file template must ensure that wherever the notional hours of the qualification is not fixed owing to either the qualification having multiple electives, the credits shall be mentioned in range depending on the minimum and maximum notional hours of the qualification. The criteria for calculation of credit would be as prescribed in the NCrF.

**15.8. The Committee approved the agenda and further directed as follows:**

- i. Qualifications submitted for NSQF alignment and approval to the Committee shall include the proposed credit validity, accompanied by a brief justification, in accordance with the provisions of the National Credit Framework (NCrF).**

- ii. **Separate allocations of notional hours should be provided for Core National Occupational Standards (NOS) and Elective NOS.**

**19.1. SOP for development, alignment and implementation of skill-based courses/Vocational Education, Training and Skilling (VETS) qualifications in Higher Education and School Education- information about**

**19.1.1.** The committee was apprised that in accordance with the NCrF guidelines, all the Universities, Higher Education Institutions (HEIs) and School Boards are required to incorporate the VETS-based courses and qualifications. However, there are some difficulties encountered by HEIs and Academic Institutions developing qualifications for inclusion in Higher education, such as NSQF-aligned and approved qualifications being chosen at a level that is not in line with the required learning outcomes, duration/number of hours of higher education, the nomenclature of some qualification as a job role can be misleading.

**19.1.2.** In view of the above challenges, a SOP to implement skill based courses in Higher and school Education has been formulated. The SOP shall complement the guidelines and provisions provided under the SOP for operationalization of NCrF in VETS and shall further strengthen its implementation. The SOP will also guide the ABs to easily design and develop qualifications for implementation in general education in Higher Education and school education. The detailed SOP is at Annexure VIII.

**19.1.3. The Committee noted and appreciated the development of SOP and further directed to share the SOP with all the Awarding Bodies.**

**19.2. One (01) New Qualification of MSME Technology Center for NSQF Alignment & Approval**
