ABOUT NIELIT

NIELIT Chandigarh is an ISO 9001:2008 certified since Feb 2002 for providing training in the area of Electronics and Information Technology. It is a professionally managed centre with a proven track record.

Our IT Education Group enjoys the privilege of training more than 50,000 participants in more than 2000 courses conducted by the Centre till date. On an average, about 500 students come on daily basis to attend various courses.

NIELIT has been conducting workshops/seminars regularly in Government Colleges and Engineering Colleges of Chandigarh, Punjab and Haryana in the area of Information Technology and Electronics. It is to help participants understand the latest technologies and usage of the technology in the industry.

OBJECTIVE

FOSS, Free Open Source Software tools have some great advantage over the proprietary tools. It is gradually promising to change the landscape of application development. This program is intended to provide opportunity for working professionals for their knowledge in the area of Content management System (CMS). The live demonstration and laboratory sessions will not only expose to the new paradigm of CMS but will also equip academicians to carry out any minor/major projects. It is planned to deliver a fully loaded Courseware. Hence, it will be suitable for those who have serious interest in quick development through CMS.

RESOURCE PERSON

Senior Faculties/Experts in the area of FOSS would be demonstrating working of FOSS, especially CMS.

ELIGIBILITY

Open to all Research Scholars, faculty of (CS/IT), Academicians, and Industry professionals having knowledge of Computer Programming.
